

Summer 1

W/b 13/04/2026

Maths Month

- Go on a math's based scavenger hunt! How many toys can you find? How many bagels have been eaten? What can you find the most of? What can you find the least of. Challenge: Can you transfer your findings into a graph?
- Can you create patterns? You could create a repeating pattern bracelet, a shape pattern picture, or use a peg board to create your own pattern picture.

W/b: 20/04/2026

National Fly a Kite Day

- Create your own kite and structure. Will it fly? Test it out with a friend and record your results. Talk with your friends and think about what worked well and what you could improve on if you were to make it again.
- Can you make some bracelets to share around school?

W/b: 27/04/2026

National Superheroes Day and Allergy Awareness Week

- Can you create your own superhero? Create them a fact file explaining what makes them special and draw a picture of them.
- Can you research what sort of allergies we might have within school? Could you create a breakfast menu to accommodate those allergies and research what alternatives you can buy for different allergies ie different milks etc.
- Create your own lollypop superheroes.

W/b: 4/5/26

World Laughter Day and
National Walking Month

- Can you create a joke book? Or join together and create your own stand up comedy show? You could then perform these shows to each other in breakfast club.
- Can you join the 10,000 steps per day challenge? Could you create a league table and see who can walk the most steps this week? Who will be the winner? Could you think of a good reward for whoever wins the challenge?
- Could you create a poster to promote the benefits of walking? How will this impact your health in the short term and the long term?

Summer 1

W/b: 11/05/2026

Donkey week and Eurovision
song contest

- Donkey arts and crafts
- Create your own song and dance (Eurovision style) and then see if you can create a trailer for it using the iMovie app on the iPad
- Create a judges station and perform your songs for the judges. Can they create a leader board? Who will come top?

W/b: 18/05/2026

National Numeracy Day and
Walk to School Week

- Design and make your own fact families. Could some of our Upper Key Stage 2 children relay their knowledge to our EYFS and KS1 children?
- Create Platonic Solids and join them together to create garlands to display.
- Create maths inspired and related art.
- Create posters for Walk to School week next week so we can display these round school. Who will be up for the challenge and be able to walk to school every day?
